THE P R E F A C E.

*** *H*E many preceding Impressions of this BOOK have sufficiently proved the Usefulness of it to People in Business, without any further Recommendation: And to render every Edition compleat, great Care is taken to correct the Alterations that happen.

As this DIRECTORY will Annually require Re-printing, on account of Removals, Deaths, New Partnerships, and other Accidents, the Printer will always be glad of written Informations in such Cases, on or before the Middle of March, that he may be the better enabled to rectify every New Edition accordingly.

1947.529

and 1100 ft. above sea level.
The air is very dry and
there is little precipitation.
The soil is very poor and
there is little vegetation.
The climate is very hot and
dry, with temperatures
ranging from 10°C to 35°C.

the DIBAO TAI
in the beginning. When
we get to the end, we can
see that the DIBAO TAI
is the only one left. We can
also see that the DIBAO TAI
is the only one left.
